PROFILE

Software Engineer & Product Builder based in N'Djamena, Chad. I turn human problems into coherent, tested product systems across mobile, web, and responsible digital platforms — with experience leading teams and building multilingual products in French, Arabic, and English.

EXPERIENCE

Team Member · Head of Web Development · Social Media Manager · Team Leader 2024 – 2026

Académie Génies Numériques

- Guided the team in web development; became team leader in late 2025.
- Managed the team's social media, reaching 300,000 views and 2,000 TikTok followers.

CTO and Team Member 2025 – 2026

V-Tech Albideynet Team

- Built the V-Tech website and helped plan the Albideynet mobile application.
- Managed the team's social media account; interviewed about V-Tech on MRTV (January 2026).

Invited Participant · via Smart Africa Youth Chapter Chad 2026

Nuclear Energy Forum connected to the Krach Institute for Tech Diplomacy at Purdue — American Center, U.S. Embassy N'Djamena

- Followed presentations and discussion on peaceful uses of nuclear energy, safety and trust, and reliable energy for Chad.

Coach Assistant 2025

AI Training Program — 2,000 Chadian Youth Initiated to AI

- Served as a coach assistant during the free AI training in N'Djamena (4–14 August 2025) that initiated 2,000 young Chadians to AI.

Participant · Scientific Committee February 2025

International Scientific Conference on Sustainable Development Prospects in Chad — Université Roi Fayçal

- Took part in the international scientific conference organized by King Faisal University.

Shop Assistant 2026

Alchazali Network

- Assisted with Microsoft Word, PowerPoint, and Canva work.

Assistant to the Head of Studies Affairs 2025

Université Roi Fayçal

- Assisted with extracting student-grade data using Excel and Word.

Web Designer and Developer 2022 – 2023

SAS Agency

- Helped build the Adibebe website.

SELECTED WORK

Khidme — Creator & Lead Product Engineer In development

- French-and-Arabic marketplace MVP for finding local workers in N'Djamena: discovery, applications, mutual agreements, portfolios, reviews, private communication, and offline resilience.

Khalawat — Creator & Lead Android Engineer

Android MVP · In development

- Privacy-conscious digital self-discipline tool (Kotlin, Jetpack Compose, local VPN/DNS, on-device data). Featured by Code For Chad.

Meeting App — Lead Mobile Engineer (Code For Chad)

In development

- React Native workflow for recording meetings, transcription, structured multilingual reports, and PDF/DOCX export.
[Live demo](#).

Hamid Azaz Portfolio — Lead Full-Stack Engineer

Live

- Arabic-and-French public profile and publishing portal for a Chadian public figure (Next.js, Supabase).
[hamidazaz.com](#).
